

Continuing The Path of Precision

New CNC Turning Center w/ Live Tooling
means faster turn-around and lower cost.

We're committed to stay at the forefront in hi-tech precision machining.

Our new Mori Seiki lathe with built-in motor turret will provide TURNING / BORING / MILLING / DRILLING AND TAPPING all in one set-up.

With the 12-station turret we can machine a wide range of components requiring many features and processes at once.

This translates to greater savings, more accurate machining and faster turn around for you.

Give us a call to discuss your machining requirements.

Portland, OR 97217

Lathes: qty 9 CNC and Conventional
CNC: up to 14.5" dia. x 52" long
Conventional: up to 45" dia. x 264" long

Mills: qty 8 CNC and Conventional
CNC: axis "xyz" 40" x 26" x 24"
Conventional: up to 48" x 96" table
w/ 5" spindle

Grinders: qty 9 ID, OD, and Surface
up to 32" dia. x 200" between centers

Drill Press:
30" vertical

Hones: qty 3 Horizontal and Vertical
up to 36" dia. x 132" stroke

Polishing Lathe:
up to 20" swing x 192" between centers

Straightening Presses: qty 2
up to 150 ton with 114" length

Industrial Hard Chrome Plating
"HEEF" process
"Triplex" process
up to 40" dia. x 168" long

Misc. Equipment
4 Hydraulic test benches
Lapping table
Strip tank
Hot tank
Steam clean booth
Sand blast booth
Paint booth

Precision Equipment offers complete industrial parts repair and custom manufacturing to both regional and national industries.
